(for each book)

The Carving Studio and Sculpture Center is celebrating its first twenty years with the publication of this volume filled with history and the work of sixty-one sculptors. Lavishly illustrated in full color, the story of the Studio's evolution is told through the words and works of the participating artists. In its powerful images and moving statements, the original dream of the Carving Studio is linked to the active international community of sculptors which has evolved over the past twenty years.
